

A PRAYERFUL 6K

As we walk, join us in prayer for the problems that a lack of clean safe water causes for vulnerable children living in the world's most dangerous places.

Illness

Heavenly Father, we pray for all children and families who are unwell from drinking dirty water.

We ask that your healing hand might be over them, helping them to get the healthcare they need to recover quickly from diseases like diarrhoea and cholera.

And as we walk 6km today and this week, help us to keep praying until clean water is accessible for everyone.

Amen

Hygiene

Heavenly Father, thank you for reminding us in the UK about the importance of good hygiene and hand washing.

Lord we pray that vulnerable children around the world can access the clean water and health education they need to stop diseases spreading – especially COVID-19.

As we walk 6km today and this week, help us to keep praying until clean water is accessible for everyone.

Amen

Abuse

Lord, today there will be children who are afraid as they walk to collect water for their family.

Please be with them Lord, send them your sense of peace and keep them safe from situations or people that would seek to hurt or harm them.

And as we walk 6km today and this week, help us to keep praying until clean water is accessible for everyone.

Amen

Loss of education

Lord Jesus, hear our prayers today for children who are unable to go to school because they are too busy collecting water for their family.

Without an education, children are robbed of their future and remain in a cycle of poverty.

So, as we walk 6km today and this week we pray that more boreholes can be built near to homes and schools bringing clean water to vulnerable children around the world.

Amen

A PRAYERFUL 6K

Loss of childhood

Jesus, children are gifts from You to our families. Lord you ask us to care for them, helping them to grow and thrive. Yet today there are children who will lose their childhood due to poverty.

With no time to play, their lives are consumed with helping to collect water simply to survive.

So, as we walk 6km today and this week, help us to keep praying that clean water is accessible for everyone and that childhoods are restored.

Amen

Technology

Dear Lord, for many vulnerable children too much or too little water is a problem. Monsoons wash away crops and homes, and droughts damage harvests. Both leave children at risk from diseases and malnutrition.

Lord we thank you for giving us wisdom to develop and use technology to make water safe and accessible to all.

As we walk 6km today and this week, we pray for the funding and training to be available to help make more use of this technology to bring clean water closer to home.

Amen
